### **TO OUR NEW AND VALUED CUSTOMER**

Thank you for purchasing your new Instant Shelter. We know you will have as much pleasure owning your new shelter as we had in making it for you. Our shelters have been designed for rapid assembly and minimal maintenance. We have rigorous quality control at every step of the shelters manufacturing process to insure you the best unit money can buy. Our parts are triple checked prior to packaging to insure you will have everything you need before you start. In the unlikely event that a part is damaged or missing, you should immediately contact your place of purchase for a speedy replacement.

### **And Now a Few Words About *Safety***

#### **HEAD PROTECTION IS RECOMMENDED!**

Working with or under heavy parts included with this shelter can cause serious head injury.

#### **WEAR GLOVES**

You will be working with metal parts which may have SHARP edges

#### **CHECK WITH YOUR LOCAL AUTHORITIES**

Underground POWER CABLES or GAS LINES may result in injury while securing the shelter. It may also result in having to move the building. A cursory check with the local building authorities will help alleviate these concerns.

## ***Covering Your World***

---

### **CLIMBING EQUIPMENT**

It is highly recommended that scaffolding, ladders and mechanical lifting equipment conform to all local building codes when erecting the shelter. Safety straps and harnesses should be used at all times. The metal structure of the shelter has not been designed for human weight. Erecting shelter during wind or rain is unsafe and could result in serious injury.

### **CHECK LOCAL WEATHER CONDITIONS**

Check your local weather forecast prior to planning your building day. Wind, snow and/or rain may cause unsafe conditions that could lead to serious injury.

### **STORING HAZARDOUS MATERIALS**

Check all local building codes prior to storing any hazardous material. Shelter may require additional ventilation to meet local codes.

### **SEVERE WEATHER CONDITIONS**

Working in and around the portable shelter during severe weather is not recommended. Serious injury could result. In the event that extraordinarily severe wind, snow or other severe conditions are predicted and if time permits, it is recommended that the shelter cover be removed.

### **PREVENT ENTRAPMENT**

Check Shelter for co workers before locking up. Always provide for escape in case of emergency.

## *Covering Your World*

---

### **SHELTER RELOCATION**

Should the shelter require relocation or disassembly for any reason, it is strongly recommended that the structure and its cover are thoroughly inspected prior to rebuilding

### **PERIODIC SHELTER INSPECTION**

As with all structures, periodic inspection of the cover and all structural components is highly recommended. Tightening the cover and the structure will prolong the life of your investment

***PLEASE BE Safety CONSCIOUS!***

Common Sense is the knack of seeing things as they are, and doing things as they ought to be done. *Harriet Beecher Stowe*

### **UNPACKING & IDENTIFYING PARTS**

Prior to assembling your New Portable Shelter, unpack all crates and complete an inventory of all parts according to the following list and diagrams

# Covering Your World

SH-1440R

## *Covering Your World*

### SH-1440R Main Dimention(mm)

※サイズは約です。必ず現物で合わせてください。

Base preparation drawing

※サイズは約です。必ず現物で合わせてください。

## Covering Your World

### Frame Assembly Steps

Choose the place, measure according to above drawing, and install base as illustrated below.

(Note: Please install the shelter after the concrete concreted)

## Covering Your World

---

Step 1: Install the first row of rafters with #5, #4 and #1, #2 as illustrated below. (To avoid accident, It is very important to hold the first row of rafter with support(wood, rope or similar thing), make sure that it won't fall down.)

Step 2: Install the second row of rafters with #5, #3 and #1, #2, connect the first row with #11, #12, install the cables #24, #25, and fasten.

## Covering Your World

Step 3: The same way to install other rows of rafters, purlin and cables.

Step 4: Install the end frames as following, then fasten all the screws and parts.

## Roof Cover Assembly

TIPS : Slide the roof cover over assembled frame from one side

insert the conduit to  
pocket on side:

Pocket for side wall conduit  
Ratchet tie down for tensioning the  
Side wall (roof cover)

## Covering Your World

Step 2 : Attach the cover (#33/#35) to the frame as following :

Note:

#33 for main roof cover tensioning.

#35 for front and end covers tensioning.

#33

Your assembled shelter will be similar to the illustration below :  
Illustration for Ratchet using.

#35

#37

#38

#16

## Covering Your World

PS:Guy rope using instruction:

Inside view

Fix the item #A,#B,#C onto the sides of shelter as shown above,to tension the shelter and make the shelter stable.  
Cinch the rope to auger anchor as shown below,and fix the anchor into ground.

## Covering Your World

(in order to protect the shelter from heavy wind, please install the wind bracing straps at points 300 mm measuring from the ends, and others to be installed in the middle averagely.) (photos are for reference only, the real quantity is according to packing list.)
